

The very special Christmas Market in Cologne

The Medieval Christmas Market, located next to the Chocolate Museum on the banks of the river Rhine, has become a true highlight on the Cologne Christmas Market scene over the past seven years. Hundreds of thousands of visitors from all over Europe and the enormous media response are proving that this market is a special event with its own special atmosphere.

Leaving behind the hectic times we will carry you off into the thrilling world of the picturesque Middle Ages. Medieval craftsmen will be working on their

typical products while telling some ancient tales. The air will be full of fine scents: oriental spices, freshly homemade bread, roasted mocca, tasty grilled wild boar and a lot of more exotic treats with only the best ingredients. Jugglers, jesters and medieval musicians will create a jolly atmosphere. A daily changing authentic cultural programme with multiple attractions beginning every hour will enchant young and old.

Come and feel the cosy atmosphere! Try the very special "lovers drink" (spiced hot red wine), a hot mixture served in old stone jugs – or taste the freshly brewed black SÜNNER-Beer from a traditional cologne Brewery.

And you might want to take the opportunity and visit the Sports Museum and the Chocolate Museum (famous for its "Chocolate Fountain" and the Chocolat-Shop)!
